

288 Optical Distribution Box Dimensions SMC

Overview

China factory anti-theft 288cores Floor standing SMC 1450*755*350 Single Door Optical Cross-connect Cabinet (OCC). The cabinets adopt SMC enclosure material with an IP65 protection level and are suitable for centralized optical cable cross-connection. The optical cross-connection Cabinet short for OCC, or some other place call it Optical Distribution Cabinet (ODC) or Fiber Distribution Terminal (FDT), is a device designed for indoor/outdoor cable management. generally the OCC/ODC/FDT consists of several part, like integrated splicing unit, PLC. Yixing SMC Series polycarbonate outdoor cabinet is a perfect solution for outdoor fiber connection and distribution applications. Designed to accommodate up to 288 fibers, the FDC is built to withstand harsh outdoor. Telecom SMC outdoor floor-standing fiber optic distribution cabinet is the hot selling 288 cores fiber cross connect cabinet, SC FC connectors with UPC APC polishing, empty box or fully equipped with ODF distribution units are optional. It realizes fiber fixation, termination, distribution, reservation, splicing, branching, and patching. Specialization: Technical professionals and production/testing equipment ensure excellent product.
