

Base station four-port information panel rack type

Overview

Four-Post Knockdown Distribution Rack, 19" Mounting, 3" Channel tapped 10-32 front and rear Adjustable Depth Rails 28"D - 36"D with a 40"D - 48"D Footprint with Angle Base. The Adjustable Rail QuadraRack (ARQR) provides a sturdy, feature-rich solution for supporting rack-mount network, computer server and data storage equipment in data centers, computer equipment rooms and other IT facilities. Each rack includes a Top-Mount Cable Waterfall Tray with adjustable radius. It processes baseband signals of a base station. 4 Boards and Cabinets or Racks Supported by the BBU This section describes boards and cabinets or racks supported by the BBU. It is ideal for use in both Telecommunications Rooms and central patching areas within Data Center environments.
