

Belgian optical cable specifications and models

Article Overview

Belgium offers a range of fiber optic cables including multimode (OM2, OM3) and single-mode (OS1, OS2) types, suitable for FTTH, FTTx, and industrial applications.

Common Fiber Optic Cable Models in Belgium

- OM2 Multimode: Designed for medium-distance data transmission, typically used in local area networks (LANs) and data centers .
- OM3 Multimode: Optimized for high-speed applications such as 10 Gbps Ethernet over longer distances than OM2 .
- OS1 Single-mode: Indoor-rated single-mode fiber for long-distance, low-loss transmission, often used in telecom and enterprise networks .
- OS2 Single-mode: Outdoor-rated single-mode fiber with lower attenuation, suitable for long-haul and outdoor deployments . These cables are available with various connectors, including LC-LC, SC, and ST, depending on the application and network equipment .

Belgian Suppliers and Distributors

- Belram: Offers a wide range of fiber optic cables, connectors, and adapters for professional markets including audiovisual, telecom, industrial, and medical applications .
- B-Cables: A major distributor and manufacturer in the BENELUX region, providing energy and telecom cables under CE labels, with in-house production and quality co...
