

Botswana Bridge Construction Project

Overview

Botswana and Zambia have invited bids for the construction of the Kazungula Bridge on the Zambezi River at an estimated cost of US\$260 million. The project would be financed partly through a loan of \$80 million signed on February 10, this year between Zambia and the African. The US\$259. Due to transportation problems brought on by the COVID-19. The new bridge over the Okavango River built by Itinera was opened to traffic in the presence of the Minister of Transport and Public Works of Botswana, Eric Molale. The 923-metre-long (3,028 ft) and 18. 5-metre-wide (61 ft) bridge, which has a longest span of 129 metres (423 ft), links the town of Kazungula in Zambia with. The bridge is the first extradosed bridge construction project that Daewoo E&C has won overseas in 2014. 5-meter-wide extradosed bridge with a 687-meter-long access road and a 2,170-meter-long single-track railway. The project scope includes a bridge linking Botswana and Zambia over the Zambezi River to replace the existing. Five years after the official opening of the iconic Kazungula Bridge, today in Kasane, Botswana and Zambia formalised a powerful symbol of regional cooperation with the signing of the agreement establishing the Kazungula Bridge Authority.
