

China Unicom Tailband Code

Article Overview

China Unicom's network codes (Tailband Codes) are 460 01, 460 06, and 460 09, representing its Home Network Identity (HNI) in China.

Network Identification Codes

China Unicom uses HNI codes to identify its mobile network. These codes are a combination of the Mobile Country Code (MCC) and Mobile Network Code (MNC):

- MCC (460): Identifies the country, in this case, China.
- MNC (01, 06, 09): Identifies the specific China Unicom network operator within China. Thus, the full HNI codes for China Unicom are 46001, 46006, and 46009. These codes are essential for device compatibility, roaming, and network registration purposes .

Frequency Bands and Protocols

China Unicom operates multiple network technologies and frequency bands:

- GSM: 2 bands
- UMTS (3G): 2 bands
- CDMA: 3 bands
- LTE (4G): Multiple bands
- Protocols: GSM, UMTS, LTE, CDMA
- Country code: +86
- ISO code: CN These bands and protocols ensure broad coverage and compatibility...
