

Color code of optical cable

Article Overview

The color code for optical cables is defined by the TIA-598 standard, which includes:

- Blue
- Orange
- Green
- Brown
- Slate
- White
- Red
- Black
- Yellow
- Violet
- Rose
- Aqua

These colors are used to identify individual fibers within a cable, ensuring consistency and reliability in fiber optic systems. Additionally, the standard also covers jacket colors and connector color codes for better identification.
