

Computer Room Communication Cable Management Rack Brands

Article Overview

Leading manufacturers of computer room cable management racks include Panduit, Belden, Siemon, CPI, and Enconnex, offering solutions for data centers, telecom rooms, and enterprise IT environments.

Key Manufacturers and Offerings

Panduit provides a wide range of cabinets, racks, and enclosures designed for data centers and telecommunications rooms. Their FlexFusion™ Cabinets support high cable capacities with vertical and horizontal cable management, perforated doors for airflow, and robust weight loads, making them suitable for hyperscale, edge, and multi-tenant data centers. Belden offers open frame racks and cabinets for single or multi-rack applications, emphasizing scalability, ease of installation, and cable connectivity. Their systems support high-density patching and switching fields in computer rooms and central offices, with thermal management improvements at the aisle level. Siemon specializes in racks and cable management solutions for both small telecom rooms and large data centers. Their Value Rack System combines 2-post racks with vertical cable managers, while adjustable-depth 4-post racks accommodate extended equipment. Siemon also provides Cable Tray Racks for zone distribution areas, enabling efficient routing and protection of horizontal and patch cables. CPI (Chatsworth Products) focuses on organizing, protecting, and optimizing cabling with vertical and horizontal cable managers. They provide personalized assistance through authorized distributors to select the right solution for data centers, server racks, and telecom rooms. Enconnex manufactures configurable ra...
