

Cost of Vertical Bends in Cable Trays

Article Overview

Vertical cable tray bends typically range from ₹65 per kg to ₹100 per piece, depending on type, material, and supplier.

Vertical bends are specialized fittings used to redirect cable trays between different elevations, ensuring proper cable support and minimizing stress on conductors . Prices vary based on material (steel, galvanized, stainless), angle (15°, 30°, 45°, 60°, 90°), and whether the bend is an inside or outside type . Standard general-purpose bends are commonly used in office buildings, data centers, and industrial installations, while diversity bends are suited for multi-system routing .

Typical Pricing Examples in India

- Rudra Corporation: Starting at ₹65 per kg
- Clevermesh Industries Private Limited: Starting at ₹100 per piece
- Ramdev Steel Industries: Starting at ₹100 per piece

Factors Affecting Cost

- Material: Stainless steel or fireproof coatings increase price.
- Angle and Type: More complex bends (e.g., 90° or multi-path diversity bends) cost more.
- Customization: OEM or bulk orders may offer discounts but require minimum quantities .
- Finish: Electroplated zinc, galvanized, or acid-resistant finishes can affect pricing
