

D-type 32-core optical fiber distribution box

Overview

SJ-ODB-M11 fiber optical distribution box 32 cores provide cost effective, reliable, and high quality fiber optic connectivity at the point of entry (POE) into a building. Built for durability and versatility, this distribution box supports up to 48FO splicing and accommodates 32 subscriber connections, making it ideal for. Fiber distribution box is suitable for the wiring connection of optical cable and optical communication equipment, through the adapter in the wiring box, the optical jumper leads the optical signal, and realizes the optical wiring function. OTRANS strives to provide you with professional, reliable. Clamping for feeder cable and drop cable, fiber splicing, fixation, storage, distribution. etc all in one. Encompass everything from distribution terminals to drop cables, meticulously crafted for effortless installation and dependable performance. Providing cutting-edge solutions that facilitate. FDB-32 Series 32 ports Fiber Distribution Box, also called Splitter Distribution Box or Fiber Terminal Box, can be used in FTTH projects and is suitable for corridor, basement, room, and building's outer walls application. With the function of the mechanical splice, fusion splice, light splitting.
