

Detailed Price List for Galvanized Cable Tray Installation

Article Overview

The cost of installing hot-dip galvanized cable trays typically ranges from \$20 to \$50 per meter, depending on tray size, installation complexity, and additional components.

Material Costs

Hot-dip galvanized (HDG) ladder-type cable trays are commonly used for industrial and commercial installations due to their corrosion resistance and durability. The base price for a standard 2.4-meter HDG tray can vary, but it generally falls within \$15 to \$30 per meter for the tray itself, depending on width and load capacity . Pre-galvanized trays are slightly cheaper but offer less long-term protection against rust .

Installation Costs

Installation costs depend on several factors:

- Labor intensity: Higher installation heights or complex routing increase labor costs .
- Supports and brackets: These components typically account for 20-30% of the total installation cost .
- Fittings and connectors: Bends, tees, and junctions add to the overall expense .
- Environmental conditions: Outdoor or corrosive environments may require additional protective coatings or specialized hardware, increasing costs . For a typical industrial or commercial project, total installed cost for HDG cable trays can range f...
