

Dimensions of IC Card Distribution Box

Overview

It describes HA, HK, and LGD series boxes with dimensions ranging from 100-415mm in length, 105-323mm in width, and 75-140mm in height. Actual units use PNP status indicator, NPN status indicator, or neither. Dimensions are shown in mm (in. 81 ft)]. According to low tension directive 2014/35/EU. Surface enclosures with a capacity of 4, 6, 8, 12, 18, 24, 36 and 54 modules with transparent window. Base and frame: ABS RAL 7035 grey. The IP65 watertight distribution enclosures are designed for indoor and outdoor use and are made of high-quality halogen-free plastic materials such as ABS and polycarbonate. These enclosures are ideal for. Datasheet POR 48 Wall-mounted Optical Distribution Box POR 48 Wall-mounted Optical Distribution Box FIBER OPTIC BOXES 5G READY Wall mounted fiber optical box is designed for the placement of up to 48 optical connectors indoor. The conductive corrugated fiberboard and external coating create a continuous conductive pathway that supports charge control.
