

Direct supply from Japanese manufacturer of dual-core fusion splice trays

Article Overview

Fujikura and Sumitomo Electric are the primary Japanese manufacturers of fusion splicing equipment, and they can supply compatible dual-core fusion splice trays through authorized distributors or direct contact.

Japanese Manufacturers Overview

Fujikura is a leading Japanese manufacturer of fusion splicing systems, known for high-quality, precision-engineered splicers and accessories . Their product line includes benchtop, field, and mass fusion splicers, and they offer a range of splice trays compatible with their splicers. Fujikura emphasizes reliability, ruggedness, and advanced alignment technologies, making their trays suitable for both single-core and multi-core fiber applications . They also provide aftersales support, spare parts, and custom engineering services. Sumitomo Electric is another major Japanese manufacturer of fusion splicers and accessories. While specific dual-core splice trays are not listed in the provided results, Sumitomo Electric offers high-quality core-aligning splicers and compatible trays designed to meet ITU-T and IEC standards . Their trays are engineered for durability and precise fiber management, suitable for indoor and outdoor installations.
