

Double-row distribution box panel

Overview

A double row distribution box is an essential electrical panel designed to manage and distribute electrical power across multiple circuits in commercial, industrial, and construction environments. The unit provides a compact yet high-capacity configuration that helps hardware companies and tool manufacturers organize complex wiring systems in factories. ABB Mini Center Compact distribution board is the basis for development and growth in meeting all the demands for a successful future in residential, commercial, and infrastructure segments. Aluminium Copper Distribution box - 300 mm² - 540 A max. Residential and small commercial panels | Distribution | !The 36 module, 2 row IP65 Distribution Boards (GCUT236) has a completely new and innovative shape, reaching the highest level of quality and design. They are made from halogen free long-lasting thermoplastic materials, ABS and polycarbonate. Each unit is manufactured in accordance with IEC standards and tested in state-of-the-art laboratories to ensure.
