

Energy-saving trough-type cable tray manufacturers

Article Overview

Leading manufacturers of energy-efficient trough-type cable trays include ABB, Eurostrut, Jiangsu Youming Group, and Atkore International, offering solid or ventilated designs for optimized cable support and heat dissipation.

Key Manufacturers and Offerings

ABB (T&B Cabletray) provides a wide range of cable management solutions, including aluminum and steel trough-type trays with solid or ventilated bottoms. Their products are designed for maximum structural strength, compliance with ANSI/NFPA 70, and NEMA VE-1 standards, ensuring safe and efficient cable routing while reducing energy loss due to overheating. Eurostrut offers hot-dip galvanized steel and stainless steel cable trays suitable for indoor and outdoor applications. Their open or perforated trough designs enhance airflow, helping prevent overheating and improving energy efficiency. Eurostrut trays are available in various widths, heights, and configurations for flexible installation. Jiangsu Youming Group Co., Ltd. specializes in trough-type cable trays with fireproof coatings, providing additional safety and energy efficiency by containing heat and reducing fire propagation. Their steel trays are designed for industrial and commercial applications, supporting large volumes of power and control cables with minimal sag. Atkore International manufactures prefabricated mill-galvanized steel trough trays (Atkore Trof) with solid or ventilated bottoms. These trays are engineered for quick installation, reduced labor costs, and improved airflow, which contributes to energy savings in cable-intensive environments. Atkore also offers a wide range of fittings and accessories for modular and customizable in...
