

Fiber Optic Dedicated Stainless Steel Corrugated Pipe

Overview

They not only provide reliable protection for fiber optic cables against mechanical damage and environmental conditions but also ensure their longevity and performance. Our pipes are highly resistant to compression and extremely durable, making them ideal for use in challenging. As the inventor and owner of the technology for placing optical fibers into stainless steel tubes, AFL offers a range of tube sizes and fiber counts for a variety of applications. Chat with supplier now for more details. Service life estimates for ULTRA FLO® and Smooth CorTM Pipe assume a storm sewer application. Storm sewers rarely achieve abrasion levels 3 or 4. NIROFLEX is a flexible corrugated stainless steel pipe system and is ideal for transporting liquids, as a protective pipe or as a heat exchanger pipe.
