

Fiber optic cable occupation

Overview

Install and repair telecommunications cable, including fiber optics. Those topics were the center of the Fiber Optic Association's (FOA) discussions with the Department of Labor's Bureau of Labor Statistics (BLS) that led to the new job category of "telecommunications technician" on the BLS website. The focus of the fiber optic tech job category is primarily the. There are many different jobs available in the fiber optics field, in many different types of organizations. Installers must be skilled. Fiber optics is how all your communications services are provided locally - phone (both wireless and wired), Internet and even cable TV. The design, installation and operation of these systems is done by trained skilled workers who make good salaries and get to work in interesting places - outdoors. Fibre Optics Installers are responsible for installing, maintaining, and repairing fibre optic cables, which are used to transmit telecommunications data.
