

Galvanized cable tray manufacturer purchase price

Article Overview

Galvanized cable tray prices vary widely depending on type, thickness, coating, and order volume, typically ranging from \$10 to \$50 per meter for standard trays, with bulk orders offering 15-30% discounts.

Price Overview

The cost of galvanized cable trays depends on several factors including material thickness, type (ladder, perforated, or wire mesh), and surface treatment. Standard hot-dip galvanized trays generally range from \$10 to \$50 per meter, with heavier-duty or custom trays costing more. Factory-direct or OEM options often provide competitive pricing and allow for customization to meet specific project requirements.

.

Factors Affecting Pricing

- **Material and Coating:** Hot-dip galvanizing with a minimum zinc coating of 80 μm is preferred for outdoor or corrosive environments, which can increase cost.
- **Tray Type and Dimensions:** Ladder trays, perforated trays, and wire mesh trays differ in weight and manufacturing complexity, affecting price.
- **Customization:** OEM or project-specific designs, including load capacity and modular expansion, can influence pricing.
- **Volume Discounts:** Bulk orders often reduce unit costs by 15-30%, making large-scale procurement more economical
