

Ggd2 distribution box

Overview

GGD type AC low voltage distribution cabinet is suitable for power plants, substations, factories and other power users of AC 50HZ, rated working voltage 380V, rated working current up to 3150A distribution system, as power, lighting and distribution equipment energy. GGD type AC low voltage distribution cabinet is suitable for power plants, substations, factories and other power users of AC 50HZ, rated working voltage 380V, rated working current up to 3150A distribution system, as power, lighting and distribution equipment energy. The company offers GGD low-voltage metal distribution cabinets with domestic components, rated up to 630 A, and IP54 protection. It holds full qualifications for power engineering projects and provides comprehensive solutions from equipment supply to installation. What is the rated voltage of this. GGD Low Voltage Switchgear is used for fixed-wiring low-voltage distribution cabinets and is classified into three types: GGD1, GGD2, and GGD3, each with different sectional current capabilities. The switchgear is suitable for power users such as power plants, substations, and industrial and mining. A GGD cabinet is a type of low-voltage electrical panel designed for power distribution, control, protection, and monitoring in AC systems operating at 50Hz with a rated voltage of 380V and current up to 3150A. Power Distribution Systems: Various high-performance distribution.

GGD2 AC Low-Voltage Distribution Cabinet Fixed-Type Overload

Key attributes Application Electric Power Transmission, Industrial, Indoor, Outdoor Rated Current 400A-3150A Number of Sockets 6, 8 Rated Voltage 380 V Place of Origin Jiangsu, China Type Distribution

Sep 28, 2025

Fixed-Type GGD2 Distribution Panel Short-Circuit Protection Metal ...

Key attributes Application Electric Power Transmission, Industrial, Indoor, Outdoor Rated Current 400A-3150A Number of Sockets 6, 8 Rated Voltage 380 V Place of Origin Jiangsu, China Type Distribution

Jul 21, 2026

GGD Low Voltage Switchgear | Industrial Power Distribution

GGD type AC low voltage switchgear distribution cabinet is suitable for the power distribution system of power plants, substations, factories, mines and other power users with AC 50Hz, rated operating

Sep 15, 2025

GGD China Low Voltage Switchgear distribution

Jiangxi Yikai Electric Co.,LTD is one of GGD switchgear manufacturer, specialize in China low voltage switchgear,distribution panel, qualified Chinese low voltage

Dec 09, 2025

GGD Electrical Distribution Boxes

Types of GGD Electrical Distribution Boxes A GGD electrical distribution box is a critical component in low-voltage power distribution systems, widely used in industrial, commercial, and residential

Apr 04, 2026

GGD2 low-voltage switchgear-SENDALL (CHINA)ELECTRIC CO.,LTD.

GGD2 AC low-voltage fixed power distribution cabinet is suitable for power supply systems with three-phase AC 50 (60)Hz, rated working voltage 400V and rated current below 3150A.

Jun 21, 2026

GRL GGD Low Voltage Power Distribution Cabinet

GRL's GGD low voltage power distribution cabinet, featuring isolator switch and flexible copper busbar for reliable electrical distribution solutions.

Oct 03, 2025

GGD2 Low Voltage Power Distribution Cabinet IP30 Protection

The main products include: PLC control cabinets, high and low voltage switch cabinets, box-type substations, distribution cabinets, and a series of automation control products, etc.

Jul 29, 2025

Industrial Low Voltage Power Distribution Cabinet GGD2 IP54

We have 15 years of experience in the electrical automation industry and are committed to providing customers with high and low voltage electrical control cabinets, distribution cabinets, explosion-proof

Oct 08, 2025

Low voltage cabinet GGD2-Beijing Jinpeng Xinlei Electric Power

The cabinet body of GGD type AC low voltage distribution cabinet adopts the form of general cabinet, and the frame is made of cold bent steel 8MF by local welding or assembly.
