

Gulf Region Outdoor Integrated Power Cabinet IP65 Price List

Article Overview

IP65 outdoor integrated power cabinets in the Gulf region vary in price depending on size, material, and customization, typically ranging from a few hundred to several thousand USD per unit.

Product Overview

IP65-rated outdoor power cabinets are designed to protect sensitive electrical and electronic equipment from dust, water, and harsh environmental conditions, making them suitable for telecom, solar PV, traffic control, and industrial automation applications . Key features include:

- Ingress Protection: IP65 ensures complete dust protection and resistance to low-pressure water jets .
- Materials: Commonly made from galvanized steel, stainless steel, aluminum, or powder-coated steel, offering corrosion and UV resistance .
- Configurations: Available as floor-standing, wall-mounted, or pole-mounted enclosures, with customizable internal layouts for UPS units, battery banks, and DC/AC distribution .
- Thermal Management: Options include natural ventilation, fans, heat exchangers, or air conditioning systems to maintain stable internal temperatures .
- Integrated Features: Some cabinets come with pre-installed power distribution units (PDU), lighting, sensors, and remote monitoring modules for simplified deployment
