

Handheld Light Source Manufacturer

Article Overview

Handheld light sources are available from a variety of manufacturers specializing in industrial, medical, and fiber optic applications, offering portable, high-performance, and customizable solutions.

Industrial and Fiber Optic Manufacturers

Several companies provide handheld light sources for industrial and fiber optic applications. For example, SeikoFire Technology offers a range of handheld fiber optical light sources suitable for testing and inspection purposes . Similarly, NLIR and Optim produce portable LED and MIR light sources for fiberscopes and borescopes, delivering high-intensity illumination in compact, rechargeable units . These products often support multiple wavelengths and can be customized for OEM/ODM orders, making them suitable for distributors or specialized industrial applications .

Medical and Endoscopic Light Sources

In the medical field, Happersberger Otopront manufactures the OTOLUX-LED, a handheld light source designed for endoscopic use. It is portable, easy to handle, and maintains high performance in mobile or clinical settings . ENDO INDUSTRIAL also offers the LQ HH handheld light sources, which are designed for precision applications and can be tailored to specific medical or industrial needs .

Chinese Manufacturers and Wholesale Options

For bulk purchasing or cost-effective sourcing, Made-in-China lists numerous handh...
