

How are cables and optical fibers sold

Article Overview

Fiber optic cables are in high demand globally, and selling them effectively requires understanding market trends, targeting the right buyers, and leveraging B2B platforms or surplus buyers.

Market Overview

The global fiber optic market is growing rapidly, projected to reach USD 25,855.78 million by 2027 with a CAGR of 7.96% . Key drivers include the expansion of telecommunication infrastructure, broadband networks, data centers, and industrial applications. High-speed internet demand and the shift from copper to fiber optics make these cables essential for modern communication and IT systems .

Target Buyers

Potential buyers include:

- Telecom companies, IT and networking firms, and data centers seeking new installations or upgrades .
- Surplus and excess inventory buyers, including distributors, resellers, and small businesses looking for quality, unused cables .
- International importers from regions like the USA, China, Europe, and Asia-Pacific .

Sales Channels

- B2B Marketplaces: Platforms like Tradewheel.com allow you to list fiber optic cables, provide detailed specifications, and connect with global buyers. You can pos...
