

How much does 1 meter of single-mode 12-core fiber optic cable cost approximately

Article Overview

The price of 12-core single-mode fiber optic cable typically ranges from \$0.30 to \$1.50 per meter, depending on cable type, construction, and purchase volume.

Price Overview

For bulk single-mode 12-core fiber optic cables, the cost per meter varies based on factors such as indoor/outdoor rating, armored vs non-armored construction, and fiber quality:

- Wholesale bulk purchases: Approximately \$0.30 to \$0.50 per meter for standard 12-core single-mode cables with PE or PVC jackets and G.652D fibers .
- Retail or pre-terminated cables: Prices can rise to \$1.00–\$1.50 per meter due to factory termination, connectors, and additional certifications .
- Specialized cables: Armored, direct-burial, or plenum-rated cables may cost \$0.50 to \$5.00 per meter depending on environmental protection and compliance standards . For example, a 1,000-foot (≈ 305 meters) outdoor 12-fiber single-mode cable with a black PVC jacket and water-blocking Aramid yarn is available for bulk purchase, which translates to roughly \$0.40–\$0.50 per meter .

Factors Affecting Price

- Fiber Type: Single-mode fiber (9 μm core) is generally less expensive than multim...
