

How much does a European-style ladder cable tray cost

Article Overview

European-style ladder cable trays typically range from €20 to €150 per meter, depending on material, size, and load capacity.

Price Factors

The cost of ladder cable trays is influenced by several key factors:

- **Material:** Hot-dip galvanized steel, stainless steel, and aluminum are common options. Stainless steel and aluminum tend to be more expensive due to corrosion resistance and lighter weight, while galvanized steel is more cost-effective for general industrial use .
- **Dimensions:** Width, height, and rung spacing affect the price. Wider trays or those designed for heavy-duty power cables cost more .
- **Load Capacity:** Trays designed to support heavier cables or multiple layers of cabling are priced higher due to stronger construction and thicker materials .
- **Standards Compliance:** European-style trays often comply with DIN EN 61537 and IEC standards, which can slightly increase cost but ensure safety and compatibility .
- **Coatings and Finishes:** Corrosion-resistant coatings, powder coatings, or halogen-free plastics add to the price .

Typical Price Ranges

- Basic galvanized steel ladder trays: €20–€50 per meter for standard widths and li...
