

How much does a Mexican aluminum cable tray cost

Article Overview

Aluminum cable trays in Mexico typically range from \$20 to \$150 USD per meter, depending on type, load capacity, and supplier.

Price Overview

The cost of aluminum cable trays in Mexico varies widely based on tray type, size, load capacity, and environmental resistance. Ladder-type trays, commonly used for power cables, are generally more expensive than perforated or solid-bottom trays due to their superior ventilation and load support. Lightweight aluminum trays are favored for indoor and outdoor applications where corrosion resistance and ease of installation are important. On platforms like Alibaba, prices for standard aluminum trays start around \$20-\$50 USD per meter for basic models, while high-capacity or custom trays can reach \$100-\$150 USD per meter.

Factors Affecting Price

- **Material and Thickness:** Heavier aluminum or higher-grade alloys increase cost.
- **Tray Design:** Ladder trays with welded traverses are more expensive than perforated or modular designs.
- **Load Capacity:** Trays designed for dense cable loads or industrial use cost more.
- **Environmental Resistance:** Corrosion-resistant or UV-protected trays suitable for chemical plants or outdoor use are priced higher.
- **Supplier and Location:** Domestic manufacturers may offer competitive pricing, while imported trays can be more expensive due to shipping and tariffs
