

How much does one meter of ADSS power fiber optic cable cost in Malaysia

Article Overview

The cost of ADSS fiber optic cable in Malaysia typically ranges from \$0.25 to \$1.20 per meter, depending on core count, cable type, and span requirements.

Price Overview

The price of ADSS cables varies significantly based on fiber core count, cable structure, and environmental resistance. For example:

- 12-core ADSS cable for short spans (≤ 100 meters) with a standard double PE jacket and basic aramid strength members costs approximately \$0.25–\$0.35 per meter .
- 24-core ADSS cable for urban applications may cost around \$0.18 per meter (\$180/km), while long-span versions with reinforced strength members can reach \$0.30 per meter (\$300/km) .
- 48-core ADSS cable for long spans (≥ 500 meters) with high tensile strength, tracking-resistant jackets, and reinforced structure can cost \$0.90–\$1.20 per meter .

Factors Affecting Cost

- Fiber Core Count: More cores increase the number of buffer tubes and overall cable diameter, raising production costs .
- Cable Type and Jacket Material: Armored or water-resistant cables, or those using LSZH jackets, are more expensive than standard PE or PVC variants .
- Span Length and Mechanical Load: Longer spans require higher tensile strength and additional reinforcement, increasing the price by 20-30% or more
