

How to Choose the Price of Fireproof Cable Trays in Portugal

Article Overview

Fireproof cable trays in Portugal typically range from €30 to €150 per meter, depending on material, fire rating, and supplier.

Price Overview

The cost of fireproof cable trays in Portugal varies based on several factors:

- Material: Steel or aluminum trays are common, with steel generally being more affordable and aluminum offering lighter weight and corrosion resistance .
- Fire-resistance rating: Higher fireproof ratings increase the price due to specialized coatings or construction .
- Tray type and size: Ladder, perforated, or solid-bottom trays, as well as standard lengths (often 2.4 meters), affect pricing .
- Supplier and brand: Prices differ between local suppliers and international distributors .

Based on typical market data, standard fireproof cable trays can cost approximately €30–€50 per meter for basic models, while high-performance or fully certified fire-resistant trays may reach €100–€150 per meter . Fittings and accessories, such as bends, tees, and supports, are usually priced per piece and can add to the total cost .
