

How to check the price of fiber optic splitter pigtails

Article Overview

Fiber optic splitter pigtails typically range from \$2 to \$15 per unit, depending on fiber type, connector, and quantity.

General Pricing

The cost of fiber optic splitter pigtails varies based on several factors:

- Fiber Type: Single mode (OS2) pigtails are generally more expensive than multimode (OM3/OM4) due to higher performance for long-distance applications .
- Connector Type: Common connectors include SC, LC, ST, and FC. LC connectors, often used in high-density data centers, may cost slightly more than SC or ST connectors .
- Polish Type: UPC (Ultra Physical Contact) and APC (Angled Physical Contact) polish types affect performance and price, with APC typically being more expensive .
- Quantity and Packaging: Bulk orders or multi-fiber pigtails (6 or 12 fibers) reduce the per-unit cost compared to single pigtails . Typical market prices for individual pigtails are approximately:
 - Single mode, SC/LC connector: \$3-\$8 per pigtail
 - Multimode, SC/LC connector: \$2-\$5 per pigtail
 - Splitter pigtails (1x2, 1x4, 1x8): \$5-\$15 per unit depending on fiber count and quality
