

How to combine cable and cable tray pricing

Overview

The price of a single straight cable tray seems to be very cheap when the price list is viewed. In order to find a realistic price, you have to add the components supporting the tray and those supporting it to. Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations can impact. Ask ten buyers about cable tray cost, and most of them will point to the rate per meter. That number matters, but it's rarely the one that decides whether a project stays within budget. Getting cable tray pricing can feel tricky, right?

Are you worried about overpaying or getting a quote that doesn't quite fit your project?

Whether you're planning a big new build, renovating an existing space, or designing something really specific, understanding how to get precise and timely. RS Australia is your leading manufacturer, supplier, and distributor of diverse cable trays in Australia. We offer a comprehensive selection from our RS PRO range and top brands like Schneider Electric and Legrand, available at a variety of competitive price points.
