

How to connect the switch to the Internet

Article Overview

You can connect your Nintendo Switch to the internet either via Wi-Fi or a wired Ethernet connection using a LAN adapter.

Connecting via Wi-Fi

- Turn on your Nintendo Switch and go to the Home screen.
 - Select the Settings icon at the bottom of the screen.
 - Scroll down and select Internet, then choose Internet Settings.
 - The console will automatically search for nearby Wi-Fi networks. Select your network from the list.
 - Enter the Wi-Fi password if prompted and confirm the connection.
 - The Switch will test the connection to ensure it is working properly. Once complete, you can access online features, download games, and play multiplayer games . Tips for Wi-Fi:
- Ensure the console is within range of your router for a strong signal.
 - Keep your firmware updated for stable connectivity.
 - If your network is hidden or requires manual configuration, you can use the Manual Setup option to enter SSID, security type, IP address, and DNS settings .

Connecting via Wired Ethernet

- Use a Nintendo Switch dock with a built-in LAN port or a USB LAN adapter if your dock lacks one.
- Connect an Ethernet cable from your router or gateway to the LAN port on the dock or adapter.
- Place the Switch into the dock (TV mode is required for wired connections)....
