

How to cover the electrical box in the room

Article Overview

You can cover an electrical box using removable, decorative, or functional solutions that hide it while keeping it accessible and safe.

Safety First

Before covering an electrical box, ensure that your solution does not block access to the panel in case of an emergency, as first responders may need quick access to cut power . Always check local building codes and consult an electrician if unsure, since some codes restrict covering panels .

Creative Covering Ideas

1. **Artwork or Wall Hangings** Hang a framed painting, canvas, or tapestry over the panel. Choose lightweight materials so the cover can be easily removed when needed . This approach blends the panel into your room's decor seamlessly.
2. **Mirrors** A standing or wall-mounted mirror can conceal the panel while making the room appear larger. Ensure it is stable and safe, especially in homes with children or pets .
3. **Pegboards or Bulletin Boards** Install a pegboard or bulletin board over the panel. This not only hides the box but also provides functional storage for notes, keys, or small items .
4. **Curtains or Fabric Panels** A small curtain or fabric panel can be mounted on a rod above the box. This is a quick, inexpensive, and removable solution that adds softness to the room .
5. **Custom DIY Covers** Build a custom cover using wood, MDF, or other materials. Options include hinged doors, sliding panels, o...
