

How to turn on the broadband connection box

Overview

Once the router arrives you'll need to plug it into a power outlet and the master phone socket, which is normally located at the front of your house. The cables you need will be included with the router. It will likely take a few minutes to set itself up. Typically, this includes the router and modem (most. Your nbn user guide [™] Getting started Plugging your devices into your nbn connection box* [™] Identifying your nbn supplied equipment [™] Maintaining your nbn supplied equipment [™] Frequently asked questions connection box indicator lights [™] Optional Power Supply with Battery Backup guide. The Ethernet cable (red ends) must be plugged into the WAN port (or port 4) on your Hub and the other end into the Openreach modem's. Just moved into your new home and need help setting up your internet?

Follow these simple steps or watch our step-by-step video to get your internet up and running. Make sure it's plugged. We'll help you set up your new broadband, DSL, or satellite internet connection, and get your PC, Mac, phones, and tablets online with Wi-Fi or ethernet.
