

Hungary acquires telecommunications power systems

Article Overview

Hungary has consolidated its telecommunications sector under predominantly Hungarian ownership, with 4iG Group acquiring key operators and creating the state-backed One Hungary brand.

Major Acquisitions and Mergers

Hungary's telecommunications landscape has undergone significant consolidation in recent years. In 2023, 4iG Group, in partnership with the Hungarian state, acquired Vodafone Hungary for HUF 660 billion (EUR 1.6 billion), marking the largest state-backed telecom purchase since 1990 and establishing a predominantly Hungarian-owned operator . Earlier, 4iG had acquired Digi Hungary, which included around 2,500 telecom towers, and later merged it with Vodafone Hungary to form the One Hungary brand, offering fixed, mobile, and pay-TV services . This merger also integrated Antenna Hungária and Invitech, further centralizing Hungary's telecom infrastructure under a single entity .

Expansion of 4iG's Portfolio

In 2025, 4iG Telecommunication Holding Ltd. acquired 99% of Netfone Telecom, a nationwide mobile virtual network operator (MVNO) with approximately 100,000 customers and over 200 resale shops . Netfone Telecom now operates on 4iG's network infrastructure, enhancing service efficiency and customer reach. This acquisition aligns with international trends of integrating MVNOs with network oper...
