

Intelligent Distribution Box Production in Democratic Republic of Congo

Overview

Facing unstable power grids in Africa?

This article explores intelligent multi-power switching systems for factories, featuring a real 5-channel Congo distribution cabinet case integrating mains, solar PV, and diesel generators. The Democratic Republic of Congo's national electricity company, SNEL SA, is moving forward with a \$46.4 million project to modernize the power grid in northern Kinshasa. A 1,700 km power transmission link that transmits power. On September 18, 2025, Congolese innovation was highlighted with the launch of the "Kim Box", an intelligent electric loge developed by Kim Engineering, a company led by the engineer Prisca Makila Biakong. It also explains how E-abel, as a professional electrical enclosure manufacturer, provides customized. The project is expected to showcase the commercial viability of solar hybrid meter-grids in DRC as a green and reliable source of electricity, and demonstrate the effectiveness of the. These resources are a great asset for the supply of low-cost power. Between 2023 and 2024, power output in the Democratic Republic of Congo (DRC) rose by 303.
