

Intelligent frequency converter screen for power distribution cabinet 10-inch screen

Overview

The new IST-10 touchpanel elevates system control in all commercial and residential settings. It starts with a hi-resolution 10" capacitive-touch screen with a 1920x1200 resolution with true-black display filter for exceptional clarity. The TDU series of touch screen displays takes your projects to new heights. The 2nd GEN A Series industrial monitors are meticulously crafted with a 3mm ultra-thin front bezel, excellent for embedding into any surface of industrial or commercial cabinets, or machinery, thus presenting a truly flat, seamless appearance. It features front IP65 panels, and aluminum alloy. The close cooperation between Riverdi & ILITEK (touch panel controllers manufacturer) resulted in creation of a new communication protocol, which, for the first time in the world, has enabled for effective data interchange between graphics controller BT817Q built by Bridgetek and Capacitive Touch. These simple-in-design PCs with Intel Atom dual-core CPU cater for the performance requirements of most automation applications in the field. 75 GHz processor and. Mouse over image to zoom. Even in the basic SK 500P version, the NORDAC PRO provides.
