

Local fireproof cable tray manufacturers

Article Overview

Several manufacturers provide fireproof cable trays with tested fire resistance, including Meka Pro, LONGJOY, NewReach, and Pingyin.

Key Manufacturers and Products

Meka Pro offers a wide range of fire-resistant cable support systems that are tested according to EN 1363-1 standards. Their products ensure electricity supply continuity during fires, prevent collapse, and use materials that do not emit toxic gases. Meka Pro provides over 1,200 fire-tested standard products suitable for critical installations, including rescue routes and emergency systems, with detailed installation instructions for compliance with international standards . LONGJOY Cable Tray manufactures fireproof channel cable trays using galvanized steel with a fireproof coating. The coating is non-toxic, environmentally friendly, and provides excellent fire, water, and oil resistance. The steel skeleton is made from high-quality cold-rolled sheets, offering high bearing capacity and long service life. These trays are commonly used in fire control rooms, fire pumps, smoke fans, and automatic fire alarm systems . NewReach specializes in fire-rated cable trays designed to maintain structural integrity during fires. Their products include powder-coated aluminum, galvanized steel, and fiberglass trays with intumescent coatings. These trays prevent flame spread, support critical electrical and communication systems, and comply with fire safety codes. Technologies like FLAMMOTECT-A and DG-CR 0.7 enhance fire resistance and reliability . Pingyin is listed as a local manufacturer in Germany, providing fireproof cable trays and related solutions. They can be contacted directly for wholesale or project-specific requirements
