

Manufacturer of Fiber Optic Vibration Cable

Article Overview

Specialized fiber optic cables and assemblies designed to withstand mechanical vibrations are offered by manufacturers such as SEDI-ATI Fibres Optiques, Feiboer, and Sun Telecom.

Key Manufacturers and Solutions

1. SEDI-ATI Fibres Optiques SEDI-ATI specializes in optical fiber assemblies for extreme environments, including applications with mechanical vibrations and shocks. Their solutions use carefully selected cladding, anchoring technologies, and coatings (aluminum, copper, carbon, acrylate) to ensure durability under vibrations, stretching, bending, and accelerations up to 50 G. These assemblies are suitable for defense, aerospace, industrial, offshore, and heavy machinery environments, where standard fiber cables may fail due to mechanical stress . 2. Feiboer Fiber Optic Cable Vibration Dampers Feiboer provides spiral vibration dampers made of high-strength, high-elasticity PVC for ADSS and OPGW cables under 12 mm in diameter. These dampers attenuate vibration energy and reduce cable amplitude, protecting fiber optic cables from mechanical damage in overhead or exposed installations . 3. Sun Telecom Sun Telecom offers high-performance fiber optic solutions, including OPGW Stockbridge cable vibration dampers. Their products are designed for telecom, data centers, industrial networks, and smart city applications, providing end-to-end fiber optic solutions that include vibration-resistant components . 4. VIAVI Solutions While not a cable manufacturer, VIAVI provides Distributed Acoustic Sensing (DAS) and Distributed Strain Sensing (DSS) systems that monitor vibrations along fiber optic c...
