

Molded Cable Tray Factory Price

Article Overview

Molded cable trays, especially FRP or PVC types, are available from factory-direct suppliers in China at prices ranging from \$0.80 to over \$76 per unit depending on material, size, and customization.

Overview of Factory Pricing

Factory prices for molded cable trays vary widely based on material, size, load capacity, and customization. Common materials include FRP (fiberglass reinforced plastic), PVC, ABS, and composite polymers, which offer corrosion resistance, lightweight design, and durability for industrial and commercial applications . Standard factory-direct pricing for bulk orders typically ranges from \$0.80 to \$76 per unit, with lower prices for simple PVC trays and higher prices for specialized FRP or epoxy resin trays designed for harsh environments .

Factors Affecting Price

- **Material Type:** FRP and epoxy resin trays are more expensive due to their corrosion resistance and long service life, while PVC or ABS trays are more cost-effective for general use .
- **Customization:** Molded trays can be tailored for specific dimensions, load capacities, or environmental conditions, which may increase cost .
- **Volume:** Bulk purchases from manufacturers often reduce per-unit cost, making factory-direct sourcing more economical for large projects .
- **Accessories and Brackets:** Support arms, covers, and brackets made from the same material as the tray can add to the overall price but improve durability and safety
