

Monaco Galvanized Cable Tray Specifications

Article Overview

Monaco galvanized cable trays are heavy-duty, corrosion-resistant steel trays designed for secure cable management with robust load capacities and versatile installation options.

Material and Finish

Monaco cable trays are constructed from galvanized steel, providing excellent corrosion resistance through a zinc coating that forms a protective patina over time, which shields the steel from rust and environmental damage . Some models also feature stainless steel hardware and powder-coated finishes for additional durability .

Dimensions

- Length: Commonly available in 8' (96") sections for RV or industrial applications .
- Width: Approximately 22-7/8" interior width for standard trays .
- Height/Depth: Around 6-5/8" tall, suitable for heavy-duty cable storage .
- Tray Extension: Slide-out trays can extend up to 60% for easy access to stored items .

Load Capacity

- Weight Capacity: Up to 800 lbs for heavy-duty slide-out trays .
- Break Strength (for cable applications): Some associated galvanized cables have...
