

# Monaco Power Cable Tray Styles

## Article Overview

Monaco power cable trays are available in metallic and non-metallic types, designed to meet international standards such as IEC-61537, UL 568, and NEC, with customizable dimensions and load capacities.

### Types and Materials

Monaco cable trays are manufactured in a variety of materials to suit different environments:

- Steel: Available in pre-galvanized or hot-dip galvanized finishes for corrosion resistance, suitable for heavy-duty applications .
- Aluminum: Lightweight, corrosion-resistant, and formable, ideal for environments exposed to atmospheric agents .
- Stainless Steel (AISI 316L): Offers high corrosion resistance, especially in chloride-rich environments, enhanced with molybdenum for durability .
- Fiberglass (FRP): Non-metallic trays provide excellent corrosion resistance, high strength-to-weight ratio, and are suitable for chemical or outdoor environments .

### Design and Configuration

Cable trays in Monaco are available in multiple configurations:

- Ladder Tray: Supports heavy power cables, allows ventilation, and reduces heat buildup.
- Ventilated Trough/Channel Tray: Protects cables while allowing airflow, suitable fo...
