

Monaco Standard Explosion-proof Distribution Box Model

Article Overview

The Monaco Standard Explosion-proof Distribution Box is a flameproof, stainless steel enclosure designed for safe energy distribution and control in hazardous areas, compliant with ATEX and IECEx standards.

Key Features

- Enclosure Material: Typically made of stainless steel (AISI 304 or 316L), providing corrosion resistance and durability in harsh environments .
- Explosion-proof Certification: Certified for Ex d IIB+H2 or similar flameproof standards, suitable for Zone 1, 2, 21, and 22 hazardous areas .
- Design: Equipped with specialized hinge structures to prevent damage to flameproof joints during opening and closing, extending service life .
- Customization: Can be configured with multiple control elements, meters, switches, MCCBs, MCBs, relays, PLCs, soft starters, frequency converters, and other industrial components .
- Control Options: Supports two-site or multi-site control, motor start/stop, corotation, inversion, and comprehensive motor protection .
- Cable Entry: Standard M $\square$ x 1.5 plug, with NPT plug options available; entry holes can be customized based on installation requirements .

Applications

- Industrial Power Distribution: Acts as a distribution box, switch box, or terminal bo...
