

New Price Quote for Galvanized Cable Trays in Jianli

Article Overview

Galvanized cable trays in Jianli typically range from approximately 50 to 200 CNY per meter, depending on size, type, and customization options.

Overview of Pricing

The cost of galvanized cable trays varies based on material thickness, tray type (ladder, perforated, or wire mesh), load capacity, and length. Standard hot-dip galvanized steel trays are generally more expensive than pre-galvanized or lightweight options due to higher corrosion resistance and durability. Factory-direct purchases or bulk orders can reduce the per-meter cost, and OEM customization may slightly increase the price.

Factors Affecting Price

- **Tray Type:** Ladder trays are often the most economical for heavy-duty applications, while perforated or wire mesh trays may cost more due to fabrication complexity.
- **Material and Coating:** Hot-dip galvanized trays are more resistant to corrosion and suitable for outdoor or humid environments, which can increase the price compared to pre-galvanized trays.
- **Length and Load Capacity:** Longer trays or those designed to support heavier cable loads require thicker steel and stronger supports, raising the cost.
- **Customization:** Custom sizes, bends, or special fittings may add to the overall price.
