

Nordic High Voltage Distribution Box Commissioning Company

Article Overview

Northern HV, Nordic EMC, and Nordic Transformer are leading companies in the Nordic region providing high voltage distribution box commissioning and related electrical services.

Northern HV

Northern HV is a specialist electrical engineering company offering HV and LV commissioning services across the UK and Scandinavia. They provide full project support from transformer builds and substation construction to switchgear installation, commissioning, and ongoing maintenance. Their expertise spans renewables, utilities, infrastructure, oil and gas, construction, data centres, and private networks, ensuring comprehensive electrical project delivery from start to finish. They also provide specialist electrical training to ensure safe and competent work in HV and LV environments .

Nordic EMC

Nordic EMC focuses on high voltage installations, SCADA systems, and electrical commissioning for renewable energy and power plant projects. They offer services including design, procurement, contracting, construction, commissioning, and retrofit phases. Notable projects include offshore wind farms like Kriegers Flak and Sandbank, demonstrating their capability in complex HV system integration. Their services cover HV/MV protection, AUX systems, telecoms, and interface manageme...
