

Outdoor cabinet specifications and dimensions

Article Overview

Standard outdoor cabinets typically feature 30-inch high base boxes, adjustable legs, depths of 24–28 inches, and widths in 3-inch increments, constructed from weather-resistant materials like stainless steel or HDPE.

Cabinet Heights and Legs

Outdoor base cabinets generally have a standard height of 30 inches, with adjustable leveling legs ranging from 3.75 to 5.75 inches, or 2 to 3.25 inches for ADA-compliant heights . Wall cabinets vary in height from 12 inches up to 42 inches, with taller units including multiple adjustable shelves . Adjustable legs allow cabinets to be leveled on uneven outdoor surfaces, ensuring stability and proper alignment .

Cabinet Depths

Standard base cabinet depths are typically 27.88 inches, with optional shallower units at 24.88 inches to accommodate specific design needs . Grill cabinets may extend to 27.75 inches including doors . Wall cabinets are usually 13.5 inches deep, providing sufficient storage without protruding excessively from the wall .

Cabinet Widths

Cabinet widths are available in 3-inch increments, starting at 9 inches, allowing for flexible configurations to fit various outdoor kitchen layouts . This modular approach...
