

Pakistan High Voltage Small Busbar Models

Article Overview

High voltage small busbars in Pakistan are available from suppliers like Jubilee Corporation, Multitek PVT LTD, and MEP Pakistan, offering compact, high-performance copper and aluminum busbars for industrial and commercial applications.

Key Suppliers and Models

1. Jubilee Corporation (Pogliano Busbars) Jubilee Corporation is the authorized distributor of Pogliano Busbars in Pakistan, offering compact busbar trunking systems (BTS) with capacities ranging from 25A to 6300A. These busbars are designed for high short-circuit strength, low impedance, minimal voltage drop, and excellent corrosion resistance, making them suitable for confined spaces and challenging environments. Installation involves 3D route design, production, and rigorous testing to ensure safety and performance standards . 2. Multitek PVT LTD Multitek provides flexible and scalable busway solutions tailored for commercial and industrial power distribution. Their systems are designed to enhance efficiency and reliability, supporting high voltage applications in factories, high-rises, and large commercial buildings . 3. MEP Pakistan MEP Pakistan offers a range of busbars with end covers, terminal strips, and mini terminals, suitable for electronic, industrial, and communication applications. They provide direct delivery across Pakistan and support local pricing and import facilitation .
