

Price List for Construction Cable Trays

Article Overview

Cable trays for construction typically range from \$2 to \$50 per meter, depending on material, type, and installation requirements.

Price Overview by Material and Type

- Steel (Galvanized or Pre-Galvanized): \$2 – \$10 per meter for standard trays; heavy-duty or powder-coated steel can reach \$10 – \$35 per meter .
 - Aluminum: \$8 – \$20 per meter for standard trays; premium or lightweight aluminum trays may cost \$20 – \$50 per meter .
 - Stainless Steel (304/316L): \$15 – \$40 per meter, suitable for high-corrosion or hygienic environments .
 - Plastic/FRP: \$8 – \$25 per meter, ideal for lightweight, non-conductive applications .
- Tray types also influence cost:

- Ladder trays: \$15 – \$50 per meter, designed for heavy-duty cabling and long spans .
- Perforated trays: \$10 – \$40 per meter, suitable for general commercial use .
- Wire mesh trays: \$8 – \$30 per meter, commonly used in IT or data centers for lightweight cabling .

Additional Cost Considerations

- Installation and labor: Labor can exceed material costs, especially for ladder trays; wire mesh trays are faster and cheaper to install .
- Accessories: Bends, tees, reducers, covers, and supports can add 20–30% to the total cost
