

Price of Cable Trays and Brackets for Electrical Installations

Article Overview

Electrical cable tray supports and brackets typically range from \$5 to \$50 per piece, depending on type, material, and load capacity.

Overview of Cable Tray Supports and Brackets

Cable tray supports and brackets are essential for securely mounting cable trays to walls, ceilings, or overhead structures, ensuring proper cable management and preventing sagging or damage . They are available in various types:

- **Wall Brackets:** Designed for mounting trays to walls, often made from galvanized steel or stainless steel for corrosion resistance .
- **Hanging Clamps and Bars:** Suspend trays from threaded rods or strut channels, supporting horizontal runs and heavy loads .
- **Standard Brackets:** Used for ceiling or floor mounting, available in light, medium, or heavy-duty versions .

Factors Affecting Price

- **Material:** Stainless steel and hot-dip galvanized brackets are more expensive than zinc-plated or mild steel options due to durability and corrosion resistance .
- **Load Capacity:** Heavy-duty supports designed to hold up to 280 lbs per foot cost more than light-duty supports for smaller cable loads .
- **Design and Size:** Brackets with adjustable angles, longer spans, or specialized shapes (e.g., for bends or tees) are priced higher
