

Price of Knob-Type Reverse-Snap Cable Tray

Article Overview

Knob-type reverse-snap cable trays typically range from \$20 to \$80 per foot, depending on size, material, and supplier.

Overview

Knob-type reverse-snap cable trays are a specialized channel-style cable tray designed for quick installation using a push-pin or snap assembly, similar to Snap Track systems offered by TechLine and Moody Price. They are commonly used in industrial plants, commercial buildings, and food and beverage facilities to support electrical, fiber optic, and instrumentation cabling. These trays are valued for reducing labor costs and providing strong, accessible cable support compared to conduit or generic trays.

Factors Affecting Price

- **Material:** Steel, stainless steel, or zinc-plated trays vary in cost, with stainless steel being the most expensive due to corrosion resistance.
- **Width and Depth:** Common widths range from 2" to 6", with larger trays costing more per foot.
- **Finish:** Powder-coated or galvanized finishes increase durability and price.
- **Supplier and Brand:** Premium brands like ABB, TechLine, and Moody Price may charge higher prices due to UL classification, patented assembly, and quality assurance.
- **Accessories:** Fittings, bends, and mounting hardware can add 10-30% to the total...
