

Price of Russian cable tray mesh

Article Overview

The price of Russian cable tray mesh varies widely depending on material, size, anti-corrosion treatment, and order quantity, typically ranging from \$5 to \$20 per meter for standard galvanized wire mesh trays.

Factors Affecting Price

- **Material and Coating:** Galvanized steel is common, offering rust resistance; stainless steel or additional anti-corrosion coatings increase cost .
- **Tray Type:** Wired mesh trays are generally more affordable than perforated or solid trays due to lower material usage .
- **Dimensions:** Width, height, and wire thickness directly influence price. Larger or heavier trays cost more .
- **Quantity:** Bulk orders (1-2 metric tons or more) often reduce the per-meter price, while small trial orders may be more expensive .
- **Certifications and Documentation:** Suppliers providing TDS, MSDS, and Certificates of Origin may charge slightly higher prices due to compliance costs .

Typical Price Range

- **Standard galvanized mesh trays:** \$5-\$10 per meter for small to medium orders.
- **High-quality or heavy-duty trays:** \$12-\$20 per meter, especially for industrial or outdoor applications requiring extra corrosion protection .
