

Price of Track-Mounted Secondary Distribution Box

Article Overview

The price of a track-mounted secondary distribution box typically ranges from \$500 to \$3,000 or more, depending on specifications, capacity, and features.

Cost Factors

The price of a secondary distribution box depends on several key factors:

- **Voltage and Amperage Ratings:** Higher voltage or amperage capacity increases the cost due to more robust components and safety requirements .
- **Number of Circuits:** Boxes with more circuits or modular expansion options are more expensive .
- **Material and Durability:** Weather-resistant or flame-retardant enclosures designed for outdoor or industrial use carry premium pricing .
- **Pre-Wired or Modular Systems:** Pre-wired or plug-in modular systems, such as those for raised floors or accessible ceilings, reduce installation time but may cost more upfront .
- **Advanced Features:** Smart monitoring, remote control, and digital displays for energy management can significantly increase the price .

Typical Price Ranges

- **Basic Residential Track-Mounted Units:** \$500–\$1,200, suitable for single-phase or small three-phase applications....
