

Price of Trapezoidal Guide Rails for Cable Trays

Article Overview

Trapezoidal guide rails for cable trays typically range from \$20 to \$50 per meter, depending on material, thickness, and finish.

Pricing Overview

The cost of trapezoidal guide rails varies based on material type (steel, aluminum), surface treatment (hot-dip galvanized, powder-coated, electro-galvanized), and thickness. For example, factory prices for straight 3-6 meter trapezoidal ladder-type cable trays from suppliers in China range from \$20-\$50 per meter, with thicker hot-dip galvanized options costing more due to higher durability and corrosion resistance. Non-standard specifications or custom lengths may increase the price.

Material and Finish Considerations

- Hot-dip galvanized steel: Offers high corrosion resistance, suitable for outdoor or industrial environments; slightly higher cost.
- Electro-galvanized steel: Lower cost, suitable for indoor applications.
- Aluminum: Lightweight and corrosion-resistant, often more expensive than steel.
- Powder-coated or painted finishes: Provide additional protection and aesthetic options, affecting price.
